

### **Ballast Water Indicative Sampling**

The Port of Fujairah is pleased to announce that onboard Ballast Water Indicative Sampling & Testing will be available as of 1<sup>st</sup> of May 2026. This new service is provided by Babard Maritime Services, located in the Fujairah Free Zone. This service is related to environmental issues, and implementation of the provisions for the Control and Management of Ships' Ballast Water and Sediments (BWM convention). Furthermore, it supports the implementation of the relevant requirements of Regional Organization for the Protection of Marine Environment (ROPME) Sea Area. The service will be available for all relevant ships at both Fujairah Port and Dibba Port anchorage areas. Ballast Water Indicative Sampling & Testing service request can be arranged via the registered agents, online at <https://babard.ae/> , or by email; [ahmed@babard.ae](mailto:ahmed@babard.ae).
